Step-by-Step
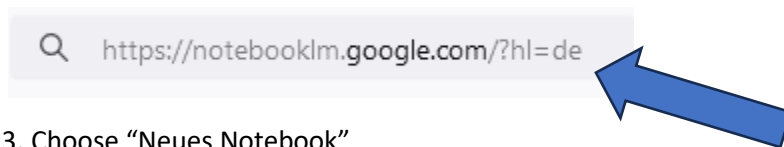

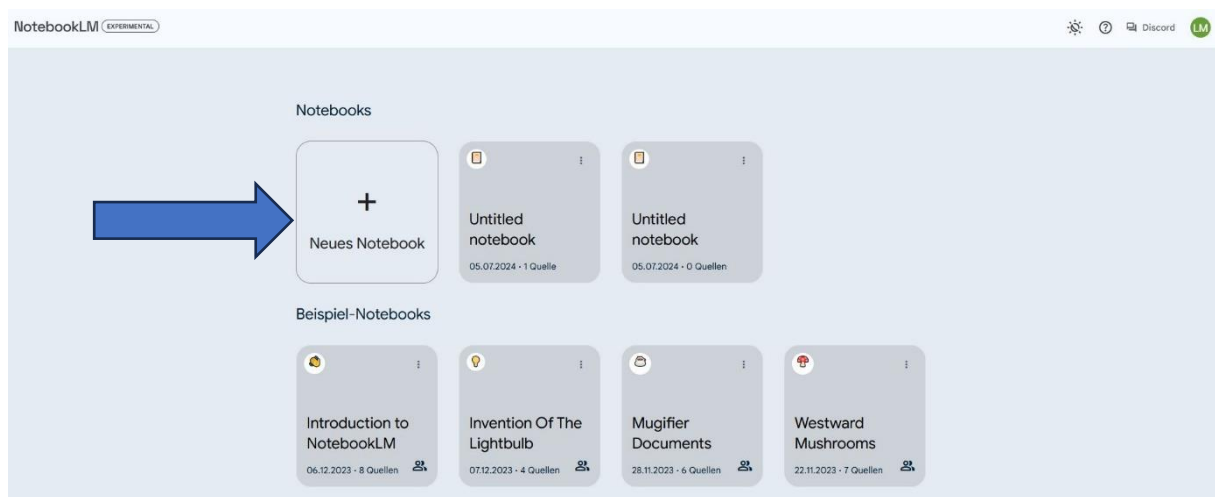

1. Log in to notebooklm.google

If we find an agreement, I will provide you an account to use, so that I can keep the notebooks after the task is completed.

2. Add '?hl=de', so that the language is changed to german

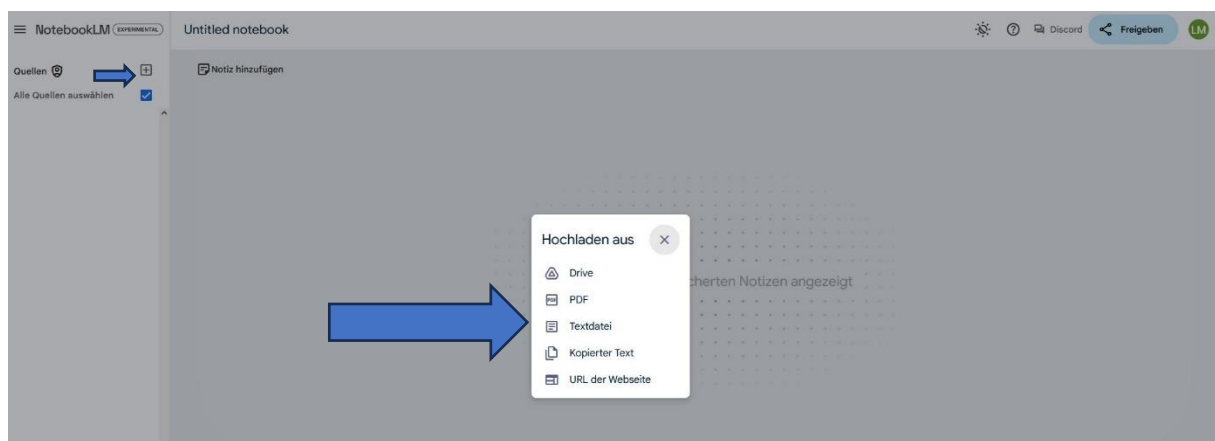

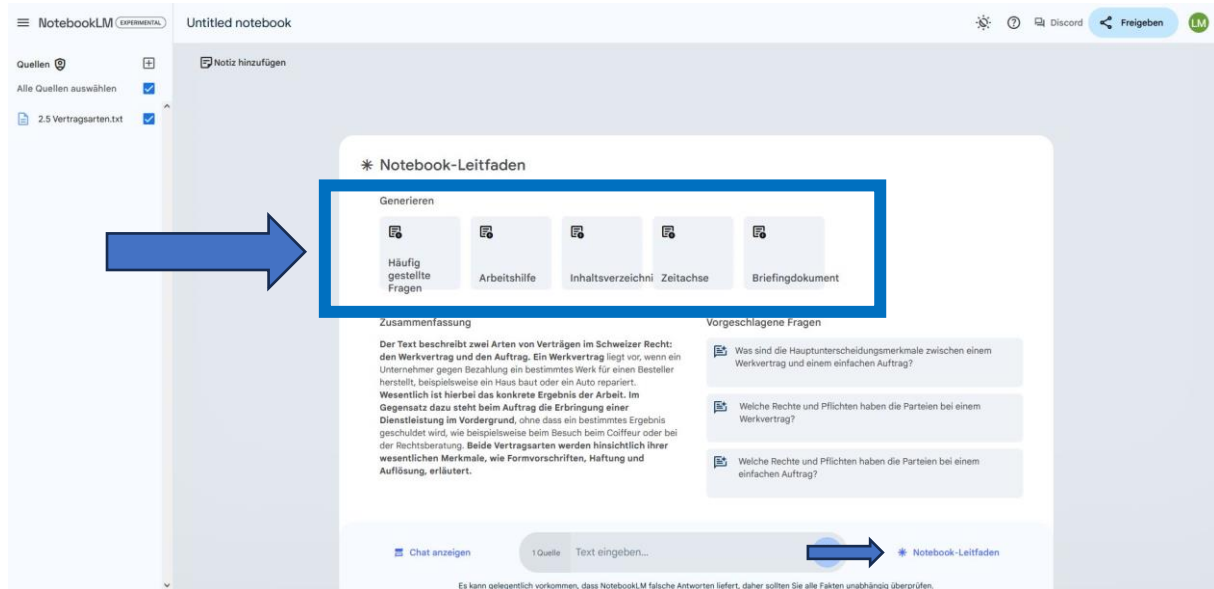

3. Choose "Neues Notebook"

4. Choose "Hochladen aus: Textdatei". If the pop-up does not open, click on '+' at Quellen

Then upload the provided txt file. One file per Notebook

5. Generate the five documents listed under 'Notebook Leitfaden'.

a) Inhaltsverzeichnis
b) Arbeitshilfe
c) Briefingdokument
d) Häufig gestellte Fragen
e) Zeitachse

7. After having notebookLM generating the documents, Copy-paste the content of each new document each in a new txt file named [originalname]-NUMBER.txt

If the original file is named "2.5 Vertragsarten.txt", you generate the following 5 files

Document:	File Name
1. Inhaltsverzeichnis	2.5 Vertragsarten-1.txt
2. Arbeitshilfe	2.5 Vertragsarten-2.txt
3. Briefingdokument	2.5 Vertragsarten-3.txt
4. Häufig gestellte Fragen	2.5 Vertragsarten-4.txt
5. Zeitachse	2.5 Vertragsarten-5.txt

That's it.
